Directions and Game Cards (0101.1.5)

Directions for 2 Players:

1. Each player chooses one of the game boards.
2. Cut out and shuffle the cards below. Place them facedown in a pile.
3. One player picks the top card from the pile and reads the word aloud. If the player has the matching homophone on his or her game board, the player places the card facedown on top of the matching homophone and says a sentence with each homophone. If the player does not have the matching homophone, he or she returns the card to the bottom of the pile.
4. Players take turns until one player covers three homophones in a row - up, down, or diagonal.
