March 1, 2008

Dear Parents:

Congratulations on the selection of your child to participate in the Southern Appalachian Science and Engineering Fair on Tuesday, April 1, 2008! This fair is held at the University of Tennessee in Thompson Boling Arena. Your child did an outstanding job with their project and educators of Jefferson County Schools are very proud of them. We would also commend you for the role you have played in creating and nurturing an educational environment necessary for student achievement. Thank you for the time and support you have provided during this project.

Students will travel to the Southern Appalachian Science Fair by bus accompanied by a science teacher from their school. Lunch and bus transportation will be sponsored for students by Appalachian Electric Cooperative. There is a long break during the lunch hour providing judges with time for preliminary judging and review of the projects. Following lunch, students will tour McClung Museum on the University of Tennessee campus. Students will return to Thompson Boling Arena at 3:00 p.m. for the final judging round. Judging is completed at 5:00 p.m. and students will board the bus and return to Jefferson County with stops at the schools in the following order: Rush Strong School, Jefferson Middle School, Maury, and White Pine. Students may call you to give an estimated time for arrival at each school.

On Thursday, April 3, the Awards Ceremony is held from 6:30 – 8:00 p.m. at Thompson Boling Arena. Parents are encouraged to attend the Awards Ceremony. There will **not** be bus transportation on April 3. All projects must be removed immediately following the ceremony.

Attached is a permission form and schedule for the Southern Appalachian Science and Engineering Fair.

We look forward to seeing you at the Awards Ceremony and once again congratulations on the achievement of your child.

Sincerely,

Jan Coley
